

ADOPT SOLAR FOR A GREENER TOMORROW!

Benefits of Rooftop Solar Adoption for Environment

Reduces reliance
on fossil fuels

Contributes towards
Sustainable Development

Reduces pollution generated
from thermal power plants

Is an emission free source
of electricity generation

About the I-Smart programme

The Indian Solar Market Aggregation for Rooftops (I-SMART) is an initiative to increase consumption of rooftop solar in the residential consumer segment. This program is supported by GIZ and MNRE.
